

TABLE 7B Horsepower of Power Equipment Used, by Geographic Areas and Type of Operation: 1963 and 1954-continued

Industry, geographic area, and type of operation	Aggregate horsepower per production worker		1963 (1,000 hp.)								
			Aggregate horsepower (prime movers and electric motors driven by purchased					Prime movers (horsepower)			
	1963	1954	Total	Loading equipment	By type of equipment		All other equipment	Total	By type of equipment		
					Transportation equipment	Highway type			Loading equipment	Transportation equipment	All other equipment
										Highway type	Other
Crushed and broken stone industry—Continued									46		
Crushed and Broken Limestone Subindustry—Continued									3		
Geographic Area—Continued									40		
West South Central									2		
									6		
									500		
Mountain									5		
Pacific									452		
Type of Operation									5		
Producing establishments									10		
Open quarries:									15		
Quarries only									4		
Quarries with preparation plants									9		
Screening but no crushing and other									59		
Combination open and underground quarries									47		
Underground quarries with crushing plants									8		
Separately operated preparation plants									11		
All other preparation methods									15		
Crushed and Broken Granite									4
